# Idea? Maybe to many

I am still in a progress stage conflicted between ideas, hoping to create the story/idea over the summer.

Main focus of creating a complete scene in a Room and it being a short film or slightest of movement in a cinematic view

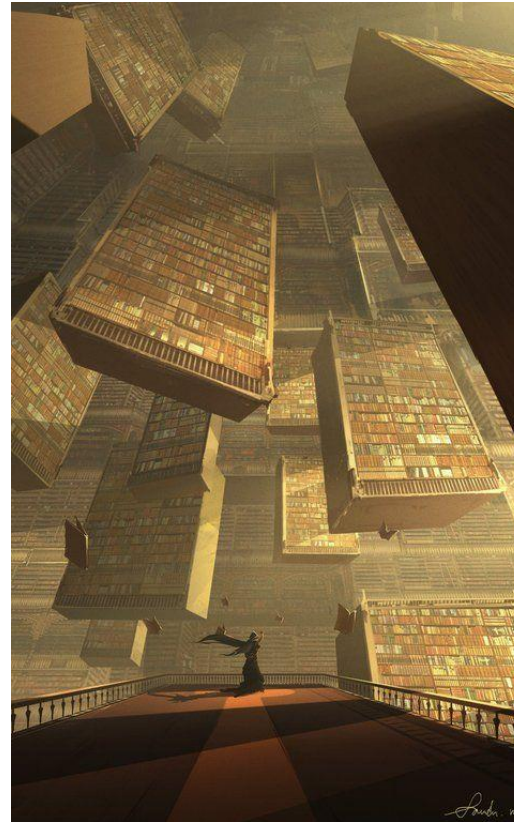

# Moodboard Medieval/Neo Gothic

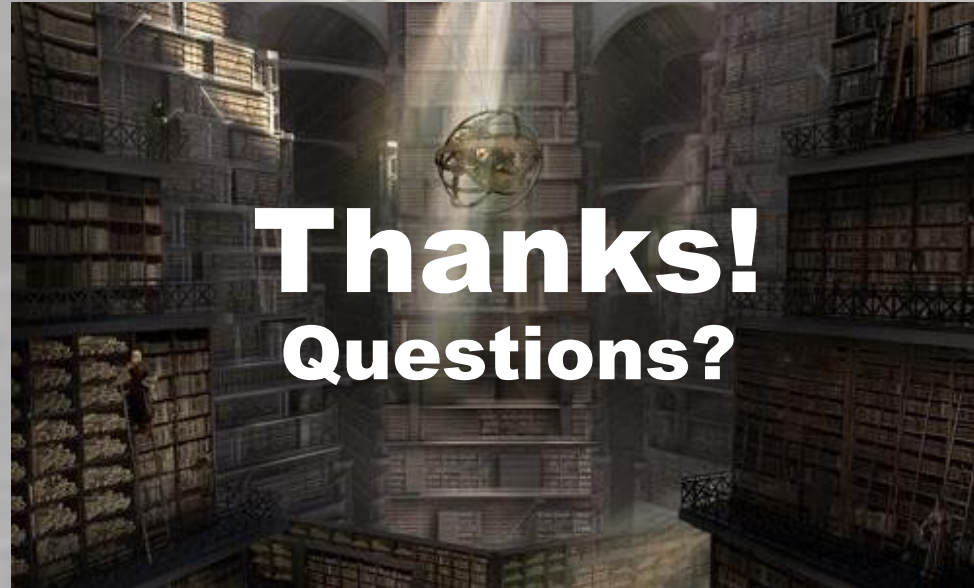

# Surreal Aspect

# Plan of action

As pointed out before, My plan is still unclear, the only part I am aware of is I want it to be medieval style/ neo gothic, in a room that I create the assets for this and simulate the surreal part. I also have to come clear with a story / background theme, and search for a violinist to work together with.

**Thanks!**  
**Questions?**
